

YOUSICIAN FOR TEACHERS

EQUIPMENT SETUP INSTRUCTIONS

For inquiries contact teachers@yousician.com

1 - Remove from one of the microphones stands, the upper part, so you end up with the main shaft.

2 - Attach the iPad holder to the main shaft of the stand.

3 - Mount your iPad to the holder securely by adjusting it to the dimensions of your device.

4 - Connect the Lightning to VGA or HDMI adapter to the lightning port of your iPad.

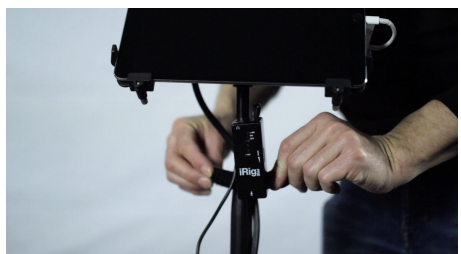

5 - Wrap the VGA or HDMI cable around the main shaft of the stand, and connect it to the lightning adapter already attached to your iPad.

EQUIPMENT SETUP INSTRUCTIONS

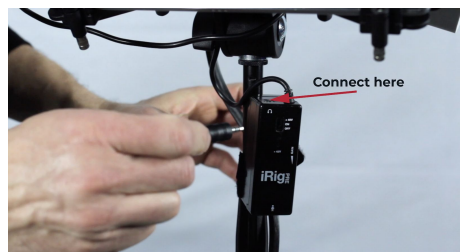

6 - Connect the other end of the VGA or HDMI cable to your projector or TV

7 - Secure the iRig Pre to the main shaft of the stand

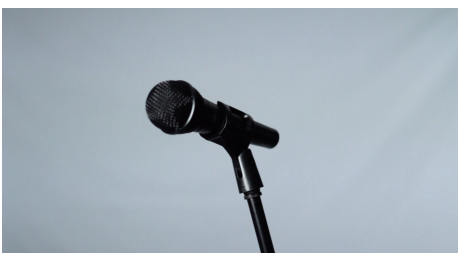

8 - Connect the mini-jack of the iRig to your iPad's headphone socket.

9 - Connect the mini-jack of the stereo audio cable to the headphone jack of the iRig Pre.

10 - Connect the other end of the stereo audio cable to the amplifier of choice

11 - Mount the handheld microphone to a separate microphone stand.
